urate data on the entire physician population in the United States. *Characteristics of Physicians* is related to wo other AMA-CHSRD publications: *Physician Distribution and Medical Licensure in the United States,* and *Medical School Alumni.* This publication iffers from these in that more characteristics are detailed for smaller geopolitical units of analysis. Comprehensiveness and detail do, however, have their cost. A total of fifty-one volumes, one for each of the States nd the District of Columbia, are required in order to resent these data.

Successful completion of this project has required ooperation between the AMA and the Bureau of Health Manpower of the Department of Health, Education, and Welfare (DHEW). The *AMA Physician Masterfile* is the data source and considerable resources ave been utilized by the AMA in developing the computer programs and designing the volumes. Contract HRA-232-78-0163 with the Health Resources Administration of DHEW has provided the financial support needed to print and disseminate these volumes. In addition to the bound volumes, print tapes of the information contained in this report are available from the Bureau of Health Manpower. Howard V. Stambler, Director of the Division of Manpower Analysis of the Bureau of Health Manpower is the Contract Project Officer. Views or conclusions contained in this study should not be interpreted as representing the official opinion or policy of the Department of Health, Education, and Welfare.

Characteristics of Physicians was conceived by AMA-CHSRD partially in response to passage of the National Health Planning and Resources Development Act of 1974 (PL #93-641). With passage of this legislation it became apparent that planning and regulation were to become integral components of the health care system in the United States.

The distribution of physicians also has been the object of Federal legislative action for several decades. Since 1965, four separate pieces of legislation each attempting to effect a different distribution of health manpower resources have been enacted by the federal government. The most recent of these is the Health Pro-

Development, and Project Director, for his efforts in making the project possible and in assuring the availablity of resources necessary to its successful completion. Gene Roback of the AMA Survey Data Center have helpful advice and comments during conceptualization and throughout the term of this project. Gary Schneier and Raymond Healy, from the AMA Division of Computer and Information Services, provided the programming expertise needed to complete tasks.

Finally, the authors also Stambler, Director, Divisio Bureau of Health Manpow Education, and Welfare, and forts to make publication volumes possible. Special a Kramer, Contract Liaison, fo publication and dissemination

nbia. Each presents state-specific detailed data for alth service areas, demographic county groups, and unties, as well as summary national data for comrative purposes. Thus, the series provides the only mpatible data base on physicians across all areas and ould be of significant use to practitioners and rearchers in the health care industry.

The data presented here are for the physician popula-n practicing in the United States. Detailed characterics are presented for all physicians with known addesses in a geographic region who are professionally tive. In addition, counts of physicians who are inace or are not classified are provided on each table.

December 31, 1975 was selected as the point in time of is report for the following reasons;

- PL #93-641 was signed in January, 1975, and it was only during 1976 that significant activity was undertaken in response to this legislation. Thus, 1975 represents the last year in which the health care system was not affected by this major piece of legislation and, therefore, is the most appropriate base year for future analyses of the impact of this legislation.
- Because this represents the first statistical series of its scope, an exceptional amount of time had to be expended in the conceptualization of the project, preparation of data set, and writing of the necessary computer programs. However, plans are being developed for publication of these volumes on a more regular and current basis in the future.

The introductory material which follows provides efinitions and discussions of the geographic aggregaons and the specific physician characteristics tabulated. his publication's relationship to other AMA publicaons and to other data sources is detailed. In addition, e *American Medical Association Physician Masterfile* described; a list of the health service areas covered in is volume is given; and a sample of the questionnaire hich is sent to physicians for the purpose of updating e *AMA Physician Masterfile* is included. Twenty-one bles listed in the Table of Contents—six national bles, which are repeated in all 51 volumes, and 15 ate-specific tables providing: state, HSA, county roups and county data—follow immediately. An additonal table which provides medical school data is included for states having medical schools.

planners, in most instances, care services to meet the nee tion, many tables report F physicians separately. In som clusion of Federal physicians vide an upward bias to the re vices available to the general

Health Service Area

The National Health Planning and Resources Development Act of 1974 mandated the division of the U.S. into health service areas. One section of this publication, Tables 16-18, presents data on Non-Federal physicians in health service areas located entirely or partially within the state covered in this volume. States with more than one health service area within their boundaries have tables for each health service area. In states where the entire state is designated a health service area, there is, of course, only one health service area table.

The existing *Masterfile* data were converted into the health service area classifications based upon the listing of health service areas published in the September 2, 1975, *Federal Register* and incorporate revisions by the

ian Characteristics

istributions of physicians are described in this n terms of a number of professional character- vith some individual characteristics cross- d with others. Key characteristics include , major professional activity, age, sex, board ion, Federal or Non-Federal employment, and l county of graduation. The thirty-six specialty tions used in this publication are the same as d in other AMA publications such as the *Physi- tribution and Medical Licensure in the U.S.,* d are presented in Table B. A physician's classification is defined as that in which he/she pending the largest number of practice hours. er of county tables utilize the classification f primary care/non-primary care specialists. care physicians, for the purposes of these re physicians whose specialty is general prac- ily practice, internal medicine, pediatrics, and

of the specific training requirements a specialty board.[2] The licensed p practice any specialty regardless of cian is board certified or not. Table indicate board certification in som necessarily the specialty in whicl classified. However, over 90 percer reported as board certified are certi in which he/she is classified.[3]

Physicians' professional activity to assess the availability of patient c fessional activity is reported by subgroups of patient care on the ba

[2] "The boards are in no sense educational i tificate of a board is not to be considered a on any person legal qualifications, privileg tice medicine or a specialty. The boards do with or limit the professional activities of do they desire to interfere in the regul- practitioner of medicine." Liaison C-

whom the AMA has not received any information as to their type of practice and present employment.

Definitions of the two other classifications used in describing physician characteristics are: Age as defined in terms of intervals of under 35, 35 to 44, 45 to 54, 55 to 64, 65 to 75, and 75 and over; Federal employment as defined as employment by the Veterans Administration, Military Services, the U.S. Public Health Service, and other Federal Service.

The medical education background of physicians is presented in several forms. Physicians who graduated from United States medical schools are categorized by the school of graduation and the state in which they currently are practicing medicine. In addition, physicians located in a particular county group or county within a state are cross-categorized either as having graduated from a medical school in the state, in a contiguous state, in some other state, in Canada, or outside the United States and Canada.

RELATIONSHIP TO OTHER AMERICAN MEDICAL ASSOCIATION PUBLICATIONS AND TO THE COOPERATIVE HEALTH STATISTICS SYSTEM (CHSS)

Although previous AMA publications, *Physician Distribution and Medical Licensure in the U.S.*, and *Medical School Alumni,* have reported similar information, *Characteristics of Physicians* provides more detailed information than previously available in published form.

The publication has two key features: greater detail of physicians' characteristics and greater detail with respect to geographic units. More detail is provided for age distributions, sex, and specialty board certification—for states, county groups, individual counties, and for the health service areas. Thus, this publication attempts to meet a more extensive set of data needs not met by other AMA publication series.

A data collection effort to provide information similar to the data published in *Characteristics of Physicians* is being undertaken by the Cooperative Health Statistics System (CHSS). Although this system even-

Availablity of Data

This concludes the descri the COP series. Every effor the most frequently request meaningful to most users. made available in the for Bureau of Health Manpowe underway to publish the CO

physicians has been maintained by the Association
ce 1906. However, in the early days of its existence,
e *Masterfile* was primarily a listing of physicians
aintained as a record-keeping device for membership
d mailing purposes. Decisions were made on a day-to-
y basis without a unified approach and without
gard as to what these decisions would mean in terms
statistical methods and interpretation of the data.

As research activities within the Association became
ore sophisticated, the complexity of data requirements
creased. The *Masterfile* was, therefore, expanded and
proved to meet these requirements. Today, the *AMA*
ysician Masterfile is the most comprehensive and
mplete source of physician data in the United States.
includes information on every physician in the coun-
, members and non-members of the Association, on
aduates of American medical schools who are tem-
rarily practicing overseas, and graduates of foreign
edical schools who are in the United States and meet
S. education standards for primary recognition as
ysicians. Thus, all physicians comprising the total
ysician manpower pool are included on the *AMA*
ysician Masterfile.[6]

A file is started on each individual upon entry into
edical school or, in the case of foreign and Canadian
aduates, upon entry into the U.S. As a physician's
ining and career develops, additional information is
ded to the file—e.g., internship and residency train-
g, licensure board certification, professional affilia-
ns, and other characteristics. Although such
aracteristics change over time, they are not subject to
nstant change. These types of characteristics are in-
ded in the "historical" portion of the *Masterfile.* In
dition, there is the "current professional activities"
rtion of each physician's record that identifies his
rrent address, professional activity, specialties, and
ployment status. By definition, this current portion
the *Masterfile* is subject to constant change and must
updated through intense monitoring techniques.

Prior to 1966, physician classification by specialty,
tivity, and employment was made through the
assification of Professional Activities (CPA) system,
ich was based upon a "private practice/not in
ivate practice" concept. Data were collected under
s system via a short postcard-type questionnaire en-

age, sex, and specialty.
however, the AMA inqui
without specifying as to dir
queries relating to the nu
hours worked in each acti

metropolitan statistical area (as determined by the Office of Management and Budget) with a population of more than three million persons; and the population of an area may be less than 500,000 in unusual circumstances, but not less than 200,000 except in highly unusual circumstances if the Governor of each state in which the area is located determines, with the approval of the Secretary, that the area meets the other requirements of this subsection. "Unusual" and "highly unusual" circumstances are to be defined by the Secretary in regulations.

4. To the maximum extent feasible, the boundaries of the health service area must be coordinated with the boundaries of Professional Standards Review Organizations, existing regional planning areas, and State planning and administrative areas.

   Each standard metropolitan statistical area (SMSA) must be entirely contained within the boundaries of one health service area unless the Governor of each State in which a SMSA is located determines, with the approval of the Secretary, that a health service area should contain only part of the SMSA in order to meet the other requirements of this subsection.

The 205 Health Service Areas designated in July 1976 * are the definitions used in this publication. A listing of the HSA's and the counties, towns, or cities comprising them for the state treated in this volume follows below.

DIRECTORY OF PHYSICIANS

Center for Health Services Research and Development

AMERICAN MEDICAL ASSOCIATION

535 N. Dearborn Street

Chicago, Illinois 60610

Dear Doctor:

Please complete this questionnaire as soon as possible so that your official record is up-to-date with correct and current information for printing of the *1973 AMA DIRECTORY*. Data obtained from this questionnaire will be aggregated and used to describe the distribution of physicians and to analyze health manpower. However, *NO information from your record will be released* to any organization for the purpose of developing independent physician data files.

Thank you.

Instructions

1. Please answer every question on the basis of your *current* activities.

2. ***Indicate any changes.*** Information which you provided previously has been printed in this form. Please *complete* unanswered sections and make *discrete changes* where applicable.

3. Upon completion, return the questionnaire at your *earliest possible convenience*, using the preaddressed envelope.

Contents

The questionnaire is divided into four sections:

1. *Professional Activities*—the types of activities in which each physician spends the most time during an *average week*.

2. How many hours per week do you spend in PRACTICE INVOLVING DIRECT CA
OF PATIENTS? Direct care means seeing patients; however, it also includes patie
services by such physicians as pathologists and radiologists.

Exclude time spent in training, teaching, or research. Include travel time and time spent on rec
keeping and other office work connected with your patients. . . . . . .

3. How many hours per week do you spend on ADMINISTRATIVE ACTIVITIES,
A SALARIED STAFF MEMBER OR EXECUTIVE OF AN ORGANIZATION?

Exclude time spent on record keeping and office work connected with management of your o
practice. Include activities connected with the administration or staff committees of a hospita
other health facility or agency, clinic or group, or any other organization by which you may
salaried as an executive or staff member. . . . . . .

4. How many hours per week do you spend on MEDICAL TEACHING?

Include hours spent in teaching as well as in preparation for subjects taught in medical schoo
nursing schools, other hospital schools, hospitals, colleges, universities, or any other educatio
institutions. . . . . . .

a. OF THESE HOURS how many do you spend on direct care of patients?

Exclude time devoted to patient care by house staff under your supervision. . . . . . .

In view of possible overlap of hours spent in teaching and research, please do not doub
count such hours, but report them instead in the most applicable category.

5. How many hours per week do you spend on MEDICAL RESEARCH?

All phases of investigating medical problems regardless of source of funds for such resear

a. OF THESE HOURS how many do you spend on direct care of patients?

Exclude time devoted to patient care by house staff under your supervision. . . . . . .

6. How many hours per week do you spend on any OTHER medical activities *(not lis*
above) INVOLVING DIRECT CARE of patients? . . . . . .

7. How many hours per week do you spend on any OTHER medical activities *(not lis*
above) NOT INVOLVING direct care of patients? . . . . . .

8. About how many hours per week do you spend in ALL PROFESSIONAL ACT
ITIES? Total of questions 1 through 7 (exclude 4a and 5a) . . . . . .

If you indicated "zero" on question 8, or if *none* of the above categories apply
you, please answer question 9.

9. Are you:
1. ☐ RETIRED
2. ☐ SEMI-RETIRED
3. ☐ PERMANENTLY DISABLED
4. ☐ TEMPORARILY not in practice
5. ☐ Not active for other reasons *(please describe)*_____

(all types of insurance carriers, pharmaceutical companies, corporations, voluntary organizations, medical societies, associations, grants, foreign countries, etc.) . . . . . HRS. 14 —

address in following space.)

(STREET) 14-43 44-73

(CITY, STATE, ZIP)

2. Please indicate at which address you wish to receive *medically related* materiel:

Professional Address..... ☐ 13

Home Address..... ☐ 14

3. Please indicate below the county and state of your HIGH SCHOOL graduation if in the United States or Possessions.

(County) 15-17 (State) 18-19 20-21

If already provided, please verify following:

(County) (State)

GROUP NAME

ADDRESS

CITY-STATE-ZIP

4. Please supply the following information:

Social Security No.: 22-32

Age: 33-35

Sex: ☐ 36 Male ☐ 37 Female

Race: ☐ 38 White ☐ 39 Black ☐ 40-41 Other

ADDRESS

CITY-STATE-ZIP

END	Endocrinology
FP	Family Practice
GE	Gastroenterology
GP	General Practice
GPM	General Preventive Medicine
GER	Geriatrics
GYN	Gynecology
HEM	Hematology
HYP	Hypnosis
ID	Infectious Diseases
IM	Internal Medicine
LAR	Laryngology
LM	Legal Medicine
ND	Neoplastic Diseases
NEP	Nephrology
N	Neurology
CHN	Neurology, Child
NA	Neuropathology
NM	Nuclear Medicine
NTR	Nutrition
OBS	Obstetrics
OBG	Obstetrics and Gynecology
OM	Occupational Medicine
OPH	Ophthalmology
OT	Otology
OTO	Otorhinolaryngology
PTH	Pathology
CLP	Pathology, Clinical
FOP	Pathology, Forensic
PD	Pediatrics
PDA	Pediatrics, Allergy
PDC	Pediatrics, Cardiology
R	Radiology
DR	Radiology, Diagnostic
PDR	Radiology, Pediatric
TR	Radiology, Therapeutic
RHU	Rheumatology
RHI	Rhinology
ABS	Surgery, Abdominal
CDS	Surgery, Cardiovascular
CRS	Surgery, Colon and Rectal
GS	Surgery, General
HS	Surgery, Hand
HNS	Surgery, Head and Neck
NS	Surgery, Neurological
ORS	Surgery, Orthopedic
PDS	Surgery, Pediatric
PS	Surgery, Plastic
TS	Surgery, Thoracic
TRS	Surgery, Traumatic
U	Surgery, Urological

In addition to the above specialties the following designations are also used:

OS	Other, i.e., physician designated a specialty other than those appearing above.
US	Unspecified, i.e., physician did not specify a specialty.
